

# FORKLIFT OPERATOR TRAINING & CERTIFICATION

- ✓ For Beginners and Experienced Operators
- ✓ Fulfills OSHA Requirements

## ON-SITE TRAINING AT YOUR FACILITY

If you have five or more operators, we offer training at your facility. Available for all types of forklifts and electric jacks including: Sit Down or Stand up, Counterbalanced, Narrow Aisle, Very Narrow Aisle, Rough Terrain, Rider Jacks, Tuggers, Stackers, & Industrial Carts.

The class is approximately four hours long including video training with a written test, preshift inspections, and hands-on driving. The hands-on portion will be performed using your equipment, in your work environment.

Upon successful completion, certificates and wallet cards will be issued to those who complete both the written test and hands-on driving evaluation. The Certification is good for three years.

## 2021 OPEN ENROLLMENT TRAINING AT OUR FACILITY

Open enrollment training classes are designed for companies with less than five operators that need training and certification. This class is similar to the on-site course, except that it is performed at a TMH facility, using our forklifts.

The training & certification will be for sit-down counterbalanced forklifts, (electric and gas/lp) and includes classroom training, a written test, hands-on driving, certificates and wallet cards.

Additional employer training will be necessary for the specific type of work environment encountered and equipment used.

Class size is limited, pre-registration is recommended online at [www.tmhnc.com/forklift-training](http://www.tmhnc.com/forklift-training)  
 We accept account invoicing, company check, MasterCard or Visa, and cash (Personal checks not accepted).  
 Payment for training class is nonrefundable.
